What you like to refer this training to your friends/colleagues?							Yes.
Did Training meet your expectations?							Yes. But the hands exercises needs to be improved. I suggest get a powerful Linux server which should able to let every one do the hands online. This will help us on the internet class itself.
Is there anything else you would like to suggest?							I suggest to get a powerful Linux server which should able to let every one do the hands on on-line at a time or any time they want. This will help all the working students of your class.
Further Comments							Good one. Pay attention to the above suggestions. Already couple of my friends are asking about this.
